

## The wonderful world of Animaplates

Animaplates are visual art projects made from simple materials such as paper plates, construction paper, cardboard rolls, paint and other low-cost materials.

Animaplates are craft projects that can be made by children; they stimulate their imagination and their creativity. These beautiful and lasting projects make great decorations for a child's bedroom. At school they can be used to integrate art with other subject matters such as science, math, language etc.

Animaplates offer learning opportunities that go well beyond art. Animaplates projects and the research they encourage are a motivating way of learning new vocabulary: names of animals, parts of the body, geometrical shapes, etc. This can be a great help for children who do not yet master English.

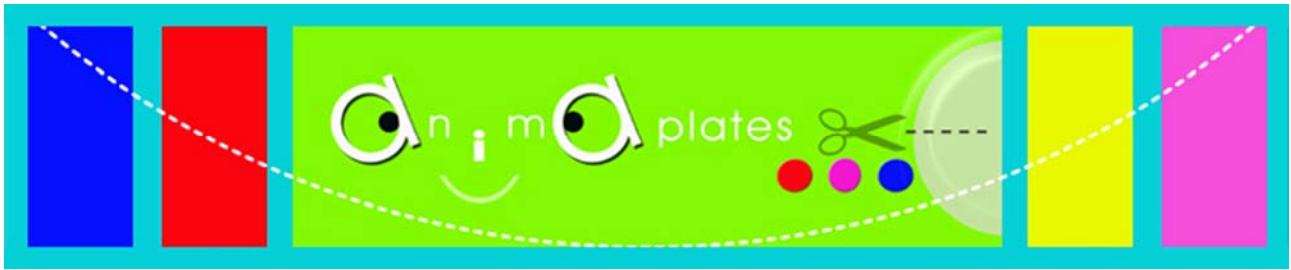

### ***There are Animaplates for every season and every theme:***

- Spring: Birdhouse and Bird Nest.
- Sea: Shell, Starfish, Crab, Jellyfish and Fish.
- Fall: Apple, Mushroom and Pumpkins.
- Winter: Snowman, Penguin and all Christmas projects.
- Music and instruments: Tambourine, Maracas, Monkey Drum.
- Giant Chess Set.
- Storytime: Puppets.
- Every month we add new projects.

### ***3-D projects for all ages***

Subscribe to Animaplates and you will have access to instruction booklets that explain how each project is built. Every booklet also contains a list of supplies, patterns for cutting, drawings and photos as well as teaching resources pertaining to the animal, the character or the object that is depicted. Members also have access to reserved sections of the website, e.g. the forum which is a place to exchange ideas, experience, pictures of complete projects, advice on where to buy the supplies, etc.

**3D projects : illustrated instructions patterns and teaching resources**

**www.animaplates.com**

The banner features a central green area with the 'animaplates' logo, which includes a smiling face. To the right of the logo is a pair of scissors and three colored dots (red, pink, blue). Below the logo, there is a row of seven 3D projects made from paper plates: a clownfish, a crab, a bird, a bear, a mouse, a dog, a lion, a witch, a pig, and a panda. The banner is framed by a cyan border with colorful vertical bars (blue, red, yellow, pink) on the sides.
